Hi Bob,

Hope all is well. I'm working with Metro on expanding bikeshare in Venice from the existing stations they have. OFW and Brooks is a potential site but we are having a hard time identifying a suitable location. Do you have any suggestions on an ideal location? Or can you provide a map of the vendor footprint so we can brainstorm internally?

Thanks so much.

Best,

Dear Mr. Davis,

At your request, our Department has completed the traffic engineering study for installation of all-way stop sign control at the intersection Market Street and Speedway. Attached for your information is the Traffic Control Report authorizing the installation of all-way stop sign control at this intersection. The installation should take 10 to 12 weeks depending on our field crew's schedule.

Please let me know if you have any questions.

Sincerely,

--

Hi Melba,

I was happy to help, although it took a lot of people who contributed to making it happen seamlessly. I have spoken with Gail and Ira about how we can make that area even more beautiful with some landscaping ideas. It would be awesome to have some tree wells and planter boxes to 'green' the block but also create a welcoming environment for you, your neighbors, and guests of Venice. Hopefully something like that can be entertained in the near future, ideally with support and direction from the neighborhood council. It is outside my realm of work (I focus on transportation specifically) but happy to help however I can.

Have a great week!

Best,

Alek Bartrosouf

Great!

Kyle, I spoke with our Sanitation folks. Every Friday they are out there clearing Ocean Front Walk and have an LAPD presence as well. They are willing to also include Park Ave to assist in your efforts. They are out there between 630 am and 11 am on Fridays. Can you schedule something on 8/17 or 8/24?

Once you have a date, keep Gonzalo informed and he will make sure Park Ave is included and can be there to support the Hulu crew.

Best,

Alek

Hi Kyle,

Yes correct, although note the comment I left you about the sign moving to the north end, should you decide to keep the sign. Thanks so much for helping with this Kyle.

If you can, please let us know when this is scheduled to occur. I'm cc-ing Robert who operates vendor spaces and Taylor who is our field deputy for the area - they'll need to be kept in the loop.

Best,

Alek

On Tue, Jul 31, 2018 at 1:25 PM, Kyle Kozar < > wrote:

Hi Alek,

Thanks for getting back to me on this. So to clarify, we have the green light to remove the alleyway racks and install any additional 5 racks to the south side of the OFW Station correct?

For your question #2. That sign is constantly vandalized and the operations team really cannot keep up with cleaning it to the extent that would be needed. So we were actually discussing removing the sign all together.

If I can get a confirmation on the above we can have the Ops team do the work sometime next week.

Thanks again,

Kyle

**Subject:** Re: 723 OceanFront Walk, Venice

Hi Kyle and Sean,

We got the green light to eliminate the racks on Park Ave and shift 5 racks over to the existing OFW station. Here is the specific request...

*Adding an additional five (5) bike rack, 30" sections on to the south end of the existing OFW rack is feasible, however, the company must relocate the existing vertical sign rack, 30" section to the north end of the rack so we can have enough spaces for future vendor space renumbering.*

If you have any questions about ^, I'm cc-ing Robert Davis who manages the vendor spots along the corridor. He also mentions that while you're out there, you should look at the kiosk - its stickered up and should be cleaned up.

Beyond that, please look at my question #2 in the email I sent you on 7/18. We're hoping you can work with Robert to generate and/or install signage to ensure the right language is on the sign.

Lastly, do you know when this would happen? The residents will inevitably ask me.

Thanks so much Kyle and Sean!

Best,

Alek

On Wed, Jul 18, 2018 at 4:09 PM, Alek Bartrosouf <[alek.bartrosouf@lacity.org](mailto:alek.bartrosouf@lacity.org)> wrote:

Kyle, we're looking into the vendor space. I'm told we'll know by next week. I'll let you know asap.

In the meantime, a couple things have come up.

1. Parks and Rec are inquiring about whether or not you would be amenable to moving the entire station on OFW north about 50 feet. If you look at the photo I sent, it would be just past the Pogotas you see in the background. The thinking here is that Hulu riders are riding on OFW INSTEAD of the bike path, and LAPD is having issues with enforcing. So if we moved it further north closer to the bike path, we could more easily direct people immediately onto the path.

2. I believe before my time (with Jesse Holzer) there were discussions about adding signage on the station that said "Walk bikes on Ocean Front Walk / Ride on the path only" - something to that effect. The discussions were about a) who would generate the sign and b) who would install the sign. If we can revive that discussion, I think it will help with enforcement and encouragement.

Thanks so much Kyle!

Hi Alek,

Sean our ops manager and I were just talking about this the other day and I wanted to reach out to ask if it would be ok to extend the racks on OFW and remove the racks in the alleyway. Those are not as utilized because of the amount of vandalism that happens to the bikes in the alleyway.

Could we extend the OFW station by 5 racks toward the South?

Thanks,

Hi Kyle,

Great to see you a couple weeks back at the bikeshare forum in the Arts District. I had to bounce right after the presentations so we didn't get to catch up.

Anywho, I wanted to follow up about these hulu racks in Venice. We have a constituent who is inquiring about the performance of the two stations very close to each other at the intersection of Ocean Front Walk and Park Ave. I'm curious - what data are you guys able to capture from Hulu on usage at certain stations?

I'm just wondering if the two can be consolidated (there seems to be some room for additional racks to the south of the existing station on Ocean Front.

Thanks and hope to hear from you soon.

Best,  
Alek

On Tue, May 15, 2018 at 4:08 PM, Alek Bartosouf <[alek.bartosouf@lacity.org](mailto:alek.bartosouf@lacity.org)> wrote:

Hi Kyle! Hope all is well and hello from across the border!

I got an email from a constituent (see below) re: a Breeze Bikeshare station. I just got off the phone with him, and essentially he wants to convey that he has changed his mind and doesn't mind the bike share station being next to his property, rather than across the street from them where they currently are. I suppose the initial station siting was in front of his building and he objected. But now he thinks it would be a good idea to be alongside his building and may be easier for public safety vehicles to get to the beach path. If you find its an better location, to move the station 15 feet back and next to his wall, he's giving you his blessing. :)

Not sure what needs to happen on the LA bureaucracy side, but if you want to make the move and have confirmed with the business owner about the location change, let me know how I can help on the LA end.

Thanks and hope all is well - did they accept your offer on the house?!

Best,  
Alek

Dear Mr. Bartosouf,

My name is Benjamin Schonbrun. I am the owner of the premises (an office building) at [723 OceanFront Walk, Venice](#). The office building is located at OceanFront Walk and Park Avenue.

I received your email from Taylor Bazley. I am writing because over a year ago bicycle rentals were about to be placed alongside my building and I objected. Instead the City placed the bicycle stands to the South of my building.

I was wrong.

I want to withdraw my objection and request that you authorize moving the bike stand to place them alongside my building from the boardwalk all the way to Speedway. As long as you allow for ingress and egress at our front entrance on Park Avenue.

I believe the stands should be alongside my building as they will not be a hazard or impediment for emergency vehicles.

I am attaching a photo of my building for your reference.

Thank you for your prompt attention and consideration of my request. Please contact me if you wish.

Sincerely,

Benjamin Schonbrun  
([723 OceanFront Walk, Venice](#))

Hi Gail,

They were scheduled to remove the racks on Friday but ran into some technical issues of removing the racks from the ground. They are going to get back out there soon and coordinate with Bob.

If you're able, can you some me some 'before' shots? I want to make sure we document the before and after :)

Alek

Good morning, Alek. Happy Monday morning.

Park Av. update?

I met with Bob Davis regarding the removal of the K-Rails and he mentioned that you and he have been in touch about removing the bike racks from Park Av. and putting some along OFW next to the ones that are there.

Any progress?

BTW, we watched Dateline on NBC last night. They did a special on the homelessness crisis in Los Angeles and several times, we saw Park Avenue prominently displayed with its tent encampment, Hulu Bike rack and border wall. Ugh!!

Looking forward to an update from you.

Thank you,  
Gail

Gentlemen: I am forwarding this most important and urgent letter that was written this morning by my neighbor, Cathy Dreyfuss. She sent it to Taylor Bazley and I feel that you should all also read it. I can attest to the fact that she speaks for all of us here on Park Avenue, Venice.

PLEASE. WE NEED YOUR HELP.

Thanking you in advance,

Gail Rogers

33 Park Av.

Subject: Homeless Encampment problems on Park Avenue

To: Taylor Bazley <taylor.bazley@lacity.org>

Cc: Ira Koslow <[redacted]>, Gail Rogers <[redacted]>

Taylor- I know you have received letters from us- the residents on Park Avenue- about the increasing problems of the encampment on Park Avenue. I am sending this with photos so you can see the typical look of our street on a weekday morning- 10 am this last Tuesday- and this isn't as bad as it usually is. The people and the bikes, bike parts, trash, food boxes, pizza boxes, bottles, liquor bottles, drug paraphernalia, tents, packs- stay all day and all night with no one to clean it up. I bring them trash bags and brooms and shovels and it does no good. I hear the fighting and the yelling at dawn and midnight and it is getting worse. There is now an aggressive dog living there as well. There are more drug addicts and dealers there and the meth users are as aggressive as the dog. And what's going on with all the bike parts? Are they stolen?

We are very supportive of the city's efforts to find short and long term solutions for the homeless problem in LA, but I can tell you right now: our block has become dangerous, disgustingly dirty and unlivable. Nobody deserves to live in this kind of circumstance- neither the homed or the homeless on Park Avenue.

Something has to be done. I have owned my home here since 1982 and I have never been so disgusted with what I have to live with, see and hear everyday. I have also been a criminal defense attorney- deputy public defender- in this area for a long time. When I am the one wanting to call the police and have everyone arrested, you know the situation has become untenable.

Here are some suggestions that we have been making for a while now:

1. Get the concrete bunkers removed as soon as possible. It only makes it more difficult for the homeless to move their tents away from Park Avenue. It also creates an enclosed space for the encampment that increases the problem.
2. Get rid of the bike share racks which make it more crowded and are unnecessary- there is another rack a few feet away on the OFW.
3. Enforce the removal and packing out of the encampment during the day.

Please bring this to Mr. Bonin's attention and let us know what will be done.

Thank you,

Cathy Dreyfuss

25 Park Avenue

What are your thoughts on adding "no motorized vehicles" to the existing "no bicycle" signs on the pier? I'm not sure how big of a problem it is but I would assume minimal.

-Taylor

**Subject:** RE: Bike Path Updates Implementation Timeline

**Importance:** High

Hi Emiko,

I think we really need to discuss this in detail as the first phase is just 4 days away, no notification has been given and it is a holiday weekend. Probably best for us to set-up a call to work through these plans as I think it will be extremely difficult to stop folks and instruct them to walk their bikes around the construction site. People will be riding at rapid speeds, bikes are not the only equipment used and we need to account for that. This plan doesn't seem too realistic.

Can we set a call w/ Marina for the second week of June and hold off until then please? Marley and Daniela will send some dates that work for Maria and I. I have also included Taylor Bazley and Bob Davis from the City.

Thank you,  
Stephanie
